

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

Beginning Monday morning you will have to dig up an extra penny when you buy a friend a cup of coffee, unless of course you pay for them one at a time. This comes about as the City Sales Tax of one percent goes into effect.

After several years of the State Sales Tax we don't expect too much trouble from the tax increase itself but we do foresee some problems with the three-way breakdown on a dollar. Some people are just not going to understand why the tax starts at 17 cents instead of 25 cents.

Because of the way the tax is set up we will be operating under a three percent tax and not two different taxes of two and one cents each. If we were operating under two different taxes then the tax would still start at 25 cents, with 2 cents at 50 and three cents at 75. But this is not the case and the tax is a straight three percent to the nearest fraction of a penny.

When you take three percent of 17 cents you come up with over half a cent and the one cent is due.

What this all boils down to is that we will just have to learn the breakdown all over again.

One thing that you will notice right away is that you can no longer buy a 98 cent item for an even dollar. But at least you can still buy a 49 cent item for 50 cents.

It will be about six months before the city receives any money from this new tax as it goes to Austin along with the state's share and then is returned in one lump sum, minus a small collection fee.

No definite figures are available to show how much money this tax will add to the city's budget in a year's time but estimates run between \$18,000 and \$20,000 a year.

Like individuals, we are sure that the easiest part for the city will be finding places to spend this, but the hard part will be deciding what should come first, and placing a priority on all our needs.

From our viewpoint we would say that there could not be much question but what salary increases should be the first order of business when this money becomes available.

Along the line of public employees, our Mayor Hollis Madden, gave us this clipping from the editorial page of the Fort Worth Star-Telegram the other day that would seem to apply in every city.

The writer points out that, "The policeman infrequently and a fireman average Fort Worth citizen needs a want he needs all the time, yet seldom perhaps never. But there is a public servant who needs a thought to unless he is absent the garbage man."

"Most of us get to know our mailman and the paper boy, and in time we might even learn the name of the policeman who directs noon traffic near the office. But the garbage man toils in faceless anonymity; he might as well be a machine."

"It occurs to us that one of the dangers of big-city (our note — smaller cities too) living is not so much that automation is taking over men's jobs — it is that we tend to depersonalize human beings into machines."

"That's not a machine picking up your trash. It's a person, and the pay scale is not the only thing he has to complain of. Our sanitation workmen in New York said: 'We're hardworking men . . . More men get hurt on this job than in the fire and police departments . . . we work with garbage, and people think they can treat us like garbage.'"

"Maybe we ought to get to know our garbage man and tell him so."

This wet, bad weather has been hard on lots of people including Pat Hughes and his track boys. They run at Bangs this week and will go to Winters the next week for the district meet. And we suspect that you could count on your fingers the number of times that they have had days that they could run.

Like all sports, you can not do your best without practice. Track coaches can just about tell you after the first week how fast their boys will be running after five or six weeks of practice but this year has been something else.

FOUR YEAR OLD HURT—

First Try At Driving Comes to Stop

There may be some young drivers in Hamlin but the one here Saturday would probably be the record — A four year old boy.

After a series of questions involving the owner of the car, staff members of the hospital and the boy's mother, the following story was pieced together by Police Chief Bryan Wasson.

Tommy Robertson, an employee of the bank, went to the bank parking lot to get into his car. He noticed a

dark substance on the inside that he thought might be chocolate. He reported it to the police and Chief Wasson identified it as blood.

At the hospital he asked if anyone had been treated for a cut and they said only a four year old boy that had required six stitches on his head.

After locating the boy's mother in Southeast Hamlin, the Chief was told that yes, the boy had to be taken to the hospital for treatment.

She had been shopping at

Hamlin Flower Shop and when she came out the boy was standing there spotted with blood, and saying 'something about a car,' the mother said.

The police believe the boy got into the car, turned on the key, started the motor and advanced to the guard rail, hitting it with enough force to throw him against a sharp edge inside the car, causing the gash. When Robertson got to his car the ignition was on but the motor was not running. Blood was also on the ground around the vehicle.

City Sales Tax To Start Monday

Hamlin merchants will join many merchants over the state Monday in collecting that extra one percent tax voted in by local residents last December. While a few cities started collecting the tax at the start of the year most of the towns approving the city sales tax will start Monday.

The tax will be collected on all items now taxed under

the state's two percent tax with the first cent due on purchases from 17 to 49 cents. The second penny will be due on purchases from 50 to 83

cents, the third penny comes due on sales of 84 cents to \$1.16 and on up at the rate of three cents on the dollar.

Local merchants will collect the tax as they collect the state tax and remit the total amount to the State Comptroller of Public Accounts. The State Comptroller will in turn remit the city's part quarterly. In the process of setting up the system it will be approximately six months before the city receives the first quarterly remittance, but after that the city will receive its part every three months.

The tax will be collected at the following rate:

Amount of Sale	Tax
\$.01 to \$.16	no tax
.17 to .49	.01
.50 to .83	.02
.84 to 1.16	.03
1.17 to 1.49	.04
1.50 to 1.83	.05

and for successive brackets the tax shall be computed by multiplying three (3%) per cent times the amount of the sale.

Only that tangible personal property which is subject to taxation by the State of Texas under the provisions of the Limited Sales, Excise and Use Tax Act shall be subject to taxation under the local sales and use tax.

In the school board election four are seeking the two vacancies. The names appear on the ballot as follows: Raymond Seifres, Jackie Williams, Sigmond Stovall, and David Casey.

School absentee ballots are available at the office of the superintendent from Mrs. J. O. Murphree, absentee clerk. The office is open during school hours.

Friday Is Last Day to Purchase Fair Bonus Books

This is the last week to buy HemisFair Bonus Books, according to Lone Star Gas Co. and the Hamlin Herald, local distribution points.

Texas Press Association, supplier of the books to Texas newspapers, reported Monday that theirs and HemisFair's supply of No. 1 books was exhausted. Only those books held now by local agents are available.

Car Tag Sale Deadline Near

Neinda Philosopher Says World Ought to Put A Stop to Questions About What Money Is

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One takes a firm stand on the world monetary system this week. We won't be responsible for what effect it has on the price of gold.

Dear editor:

I guess the worst mistake mankind can ever make is to bring up the subject of money and what it is. It's the one thing that should never be discussed.

I came to this conclusion after reading about the gold crisis in eight different newspapers during the past two weeks.

Here the world was, financially speaking, rocking along as usual, trying to make ends meet, keeping up with its installment payments one way or another, writing checks and trying to get a deposit to the bank before they cleared, and suddenly the headlines announced we were facing a world-wide monetary crisis. Speculators were driving the price of gold up and confidence in the stuff was being undermined while the price was soaring.

Then the economic experts came on explaining once again what nobody has ever been able to explain — that the monetary system is based on gold despite the fact gold itself is pretty useless, outside of hollow teeth and jewelry. I can't think of anything more useless than a stack of gold bars sitting in an underground vault.

Everybody knows this, and therefore nobody should ever mention it again. I shouldn't be doing it now. Just say currency is backed by gold, and anybody who asks any more questions will be considered un-American, un-British, un-French, un-Russian, un-Italian, un-Chinese, un-Vietnamese, un-Ethiopian, etc. The entire world ought to get together on this week-end and never allow the subject to be brought up again. It's the one eternal truth everybody ought to agree on.

Every child clear around the world from now on should have it drilled into his head: Money Is Based On Gold. And Now Shut Up.

Incidentally, the economists too, cease to "shore up confidence in the dollar."

There they go again. I've got plenty of confidence in the dollar. Just give me a few more and I'll prove it.

Yours faithfully,
J. A.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

PUBLIC NOTICE

A reminder to the public that the dumping of dead livestock such as horses, mules, cattle, hogs, sheep or goats etc. at the City Dump Ground is prohibited. The dumping of dead animals create a very unhealthy surrounding and for the health of the community these animals must be destroyed by the owner or person or persons in charge in such a manner as to protect the health and welfare of the citizens of our community.

Please do not put any dead animals or fowls in your trash barrel, they will not be picked up by the sanitary truck. If such dead animals or fowls are found in the trash barrels, such barrels or boxes will be passed up by the sanitary truck until the dead animal or fowls have been removed from the container.

Any individual dumping trash of any kind at the City Dump is requested to take your trash into the dump as close to the dump pile as possible rather than dumping your trash near the entrance or by the side of the entrance road. Trash being dumped in such a manner is causing the City much expense trying to keep the dumping area open and each time it is required to hire a dozer for several hours

April 1 Deadline Medicare Signup

Jones County residents who were born before July 1901 and have not enrolled for doctor-bill insurance under Medicare now have a last chance to sign up. Wayne Baker, field representative for social security, said today.

"If they do not sign up by April 1," according to Baker, "they will never have another chance to be covered by the provisions of the Medicare program that helps pay doctor bills and other medical expenses. Those born 8-01 through 9-03 can enroll early in 1969 if they miss out this time."

"This coverage will involve a \$4.40 monthly premium, ten per cent more than those who enroll before they are 65 will pay and will be effective July 1."

Additional information regarding enrollment may be obtained at the Abilene Social Security Office which will remain open until 9 p.m. on April 1, to accommodate all possible near last-minute decisions.

Some 20 junior fiction books were given Tuesday. Other volumes given earlier this year include a children's encyclopedia.

Some 15 women worked at the Library Tuesday evening. Plans were made to work again Tuesday, Apr. 2, at 7 p.m. All interested in helping are asked to come at this time. Several persons have been familiarized with the process and can show others easily.
